LESSON ACTIVITIES
1. Students will do research on the e-WV website to learn more about West Virginia during the 1920s. They will create a “Decade Poster” on information they have collected. Guidelines can be adjusted to vary for computer lab time and available materials. The activity will highlight a major development during this time period. (Being born in the 1920s does not qualify as a major accomplishment of the period.) This project could be assigned to groups or as an individual assignment. The poster should be done in a style that fits the 1920s. Students should be prepared to present and answer questions about all of the information covered on their posters.

2. Select the “Features” tab at the top of the homepage of e-WV: The West Virginia Encyclopedia at http://www.wvencyclopedia.org/. Show students the interactive timeline. Select the range to reflect 1920 – 1930 and allow students to find articles, people, and industries that influenced West Virginia during the 1920s.
4. Here is an example of the information that could be included on the decade poster:
   • Ten major events from the 1920s.
   • Two influential West Virginians that had an impact in the 1920s social progress (civil rights or women’s rights).
   • Five pictures of an event or person from the decade.
   • Five examples of infrastructure that was added or changed during the 1920s.
